Supervisory Accounts: [Probation / Parole and Court Official Supervisory Tools](https://cop-i.com). All Officers, Court Officials, DCFS Social Workers, Pretrial Reps, Judges and other Court Officials may obtain a Supervisory or "Officer" Account to monitor those registrants that have been assigned to them from enrollment to completion of the program. At <https://cop-i.com>

Defendant Accounts: We are a Brick & Mortar Program Provider with multiple locations throughout the United States. A Certified and Accredited Program in many States and Counties, with Live, In-Person Classroom Style, Webcasted Group Sessions. Our Classes are done Via LIVE VIDEO GROUPS with a certified facilitator who leads the group so they are considered a in-class program and have been accepted by various courts and probation departments throughout the Nation. We are currently in our 14th year with now over 9,500 students (probation, parole, DCFS, pretrial, educational) in our database, 8800 of which who have successfully completed and satisfied their court orders through our program. The managing staff at Court Ordered Programs has developed exceptional and technologically advanced programs that they have implemented in their "Advanced Learning System - Live Web Class" school. This is not the make believe on-line program that others offer on CD's and word documents. This "live group meeting" **adheres to and surpasses all State standards** and laws regarding Domestic Violence and Batterers Intervention Programs and has since been put to use by many Children's, Family, Drug and Criminal Courts throughout the Nation.

The clients you refer to us now have access to the same quality of classes and continuity in the level of counseling and supervision that they require regardless of how they take the class. Today there is no difference between a group in some office building, or at <https://courtoorderedclasses.com> using our Advanced Learning System Live Webcast Groups from the secure site & the comfort & security of home. There is a New Psychology - and by immersing it in the technological advances of today the bar has been set so high - the results being achieved are now so very groundbreaking. Today, like never before, we can provide solutions that resolves many of the issues your department has had trouble within the past, and this is why we are here.

All of our other programs from DV/BIP to DEJ and Anger Management or Criminal Behavior Modification, Shoplifting, High Conflict Parenting, Divorce, and our new Juvenile Betterment Program follow the same standards and group participation requirements with material from this decade.

We encourage you to take a closer look & explore our many programs and initiatives as a resource to you in your intervention and prevention efforts. For More Information or any Addition Questions you can reach our managing staff using our direct Officer/Court line at (916) 900-6166. We always look forward to speaking with you personally.

We look forward to showing you how much of an asset we can be.
